§7602. Findings, declaration of necessity and purpose

It is hereby found and declared that:

* * *

(4) There exists in parishes ~~in the state having a population of more than four hundred seventy-five thousand~~ and in municipalities ~~in the state having a population of more than three hundred thousand~~ and municipalities in the state an inadequate supply of safe and sanitary dwelling accommodations for persons and families of all income levels. This condition is contrary to the public interest and threatens the health, safety, morals and welfare, comfort, and security of the people of the parishes, municipalities, and state.

* * *

(8)(a) The interests of the state will be promoted, and the public interest best served, by the coordinated development of new communities in parishes ~~having a population of more than four hundred seventy-five thousand~~ and in municipalities ~~having a population of more than three hundred thousand~~ and municipalities.

* * *

(9) There exists within parishes ~~having a population of more than four hundred seventy-five thousand~~ and municipalities ~~having a population of more than three hundred thousand~~ and municipalities, vacant or essentially vacant land, which presents such parishes and municipalities with opportunities to develop a highly desirable quality of life for the benefit of their residents and the people of the state, as well as to plan for the entire growth of such parishes and municipalities for the rest of this century through the acquisition, planning, and development of such land and immediate and positive action is required to ensure rational growth of available vacant land, while maximizing development opportunities and social values.

1 method of achieving such preservation and enhancement in areas in which such tax
2 base is not experiencing vigorous growth or is declining; community development
3 in such areas, when complete, will enhance such tax base and provide increased tax
4 revenues to all affected taxing districts, increasing their ability to accomplish their
5 other respective purposes; and the preservation and enhancement of the tax base in
6 such areas through tax increment financing and the levying of taxes by such taxing
7 districts therefor and the appropriation of funds to a new community trust fund bears
8 a substantial relation to the purposes of such taxing districts and is for their
9 respective purposes and concerns.

10 (11) For these purposes, there should be created bodies corporate to be
11 known as "New Community Development Corporations" through which the
12 acquisition, planning, and development of land and the encouragement of maximum
13 participation by the private sector of the economy (including the sale or lease of the
14 corporation's interest in projects, if deemed feasible), may be accomplished, and
15 through participation in programs undertaken by the state, its agencies and
16 subdivisions, parishes and municipalities, ~~having a population of more than three~~
17 ~~hundred thousand~~ and the federal government and the issuance of bonds, notes, and
18 other evidences of indebtedness, the corporations and their subsidiaries may provide
19 or obtain the capital resources necessary to acquire, construct or improve industrial,
20 manufacturing, commercial, educational, recreational and cultural facilities, housing
21 accommodations for persons and families of all income levels, facilities incidental
22 or appurtenant thereto, transportation systems and facilities, and carry out the
